Key Insights And Recommendation

Dinner Rush

Insight--> Most orders come in at dinner time.
Info-->8 PM is the busiest hour (784 orders), followed by 9 PM (707). Lunch peaks at 1 PM (634).
Recommendation-->Add more delivery partners from 7–10 PM and 12–2 PM.

Weekend Demand

Insight-->Weekends bring more orders than weekdays.
Info-->Saturday and Sunday make up 2 of 7 days but 34.6% of all orders (~1,030 each vs ~740 on Mon–Thu).
Recommendation-->Run weekend offers and increase partner staffing on weekends.

Festive Season

Insight-->Revenue grows strongly in the festive season.
Info-->October revenue jumped +38% month-over-month. February had the biggest dip (−19%).
Recommendation-->Plan festive campaigns before October and run offers in February to lift sales.

Monsoon Delays

Insight-->Deliveries slow down during the monsoon.
Info-->Average delivery time rises to ~41 min in July and ~40 min in August, against ~30 min in other months.
Recommendation-->Give rain incentives to partners and show realistic delivery times to customers.

Speed = Rating

Insight-->Late deliveries lead to lower ratings.
Info-->Average rating is 4.66 for deliveries within 30 min, 4.36 for 31–45 min, and 3.60 for over 45 min. Only 48% of orders arrive within 30 min.
Recommendation-->Set a 30-minute delivery target and track on-time % weekly.

Cash Cancellations

Insight-->Cash orders are cancelled most often.
Info-->Cash on Delivery orders cancel 9.2% of the time, against 5.2% for UPI and 4.2% for debit cards.
Recommendation-->Encourage UPI payments with small cashback offers.
